Joan,

Thanks. I am just looking for a pretty straight-forward sequencing of events – really high-level – when the release happened, when we started to notify folks – when we mobilized – pretty basis – for the boss, for now.

David, the detailed chronology I referred to is the Region 8 Administrative Record for FOIA and other purposes. I think this one that Matt is building with all of us will serve communication purposes better.

Matt: we have a team developing a detailed chronology. Are you asking for public statement about chronology or do you need it for your work? If so, when do you need it so I can instruct the team accordingly.

Good morning everyone,

Do we have a tight chronology of events? This just has to be the major items or actions.

For example:

August ...- release occurred as EPA/contractor was working at the site

August ...EPA notified...

(notification sequence would be helpful)

August....Unified Command was established

Summarize: as of August...### samples have been collected from ### locations along both the San Juan and Animas River.

Those type of highlights.

Thanks.
